

Always dispose of breakages in a designated broken glass and crockery bin.

An employee was seriously hurt due to broken crockery incorrectly disposed of in a bin by another staff member. While disposing of the waste bag a piece of this crockery pierced through the bag cutting the employee's arm causing a serious injury.

This incident could have been prevented if the safe procedure was followed.

Always ensure you are being mindful of the task at hand and following the safe systems of work.

Don't Place Broken Crockery or Glass Directly Into a Bin

Place in the Dedicated Broken Crockery / Glass Bin
