

Allergen information will be presented to customers in the form of a table clearly stating which of the 14 major allergens are contained within a food or drink.

Please note, as with every catering establishment, there is always a potential for cross-contamination to occur. While we endeavour to prevent this as far as possible, the nature of an allergen means we cannot fully guarantee that cross-contamination may not have occurred.

We encourage our customers with food allergies and intolerances to let our staff know so we can better cater for them. We are happy to provide further detail on ingredients and how they were handled to allow you make an informed decision as to whether or not the food is suitable for you.

If you have any concerns please speak to a member of staff or contact us at nutrition@compass-group.co.uk
