You must be trained and 18 years of age or older to dismantle and clean the equipment

Clean up any spillages immediately

Safety Task Card

Use of waste disposal machines

STCCS 53

Unit Managers – use page overleaf to list any hazards and control measures specific to your site which are not listed below

Safe System of Work

1. All operating and isolating switches are should be conveniently accessible.
2. Check the guards are in position and that safety interlocks are in good working order. If not, do not use the waste disposal machine and report it to your manager.
3. Keep clothing and cloths away from moving machine parts so that they cannot become entangled and drawn into the machine.
4. Equipment must be electrically isolated before attempting to remove blockages.
5. Clean up spillages as they occur and use wet floor warning signs when appropriate.

If you have any concerns, stop and speak with your line manager before proceeding.
