HAND PROTECTION

Across all Chartwells business, wearing a Cut Resistant Glove when there is risk of a cut injury is a mandatory requirement. Some examples: using a knife – using a Mandolin – cleaning a slicing machine – removing the blade from a Robot Coupe – picking up broken crockery, the Safe Systems of Work in the Safety Task Cards in your Workplace Safety Management System associated with those tasks must be followed and a Cut Glove worn.

Recommended product code from Bunzl is Q2511

Remember – taking 1 minute to put on that cut glove could prevent a reportable injury!
