

# Safety Share

## Leadership Safety Walks

The Safety Walk is an opportunity to walk the 'shop floor' to observe and interact with our colleagues working within their environment, and to reaffirm good safety standards and behaviours.

**1st Option** - the Mission Possible Safety Walk (v4) is available to complete on Origami, this has 3 set questions, these change periodically. This should be completed by the Senior Leadership Team, Contract Directors, General Managers, Area Managers, Group Managers, Business Support Managers.

**2nd Option** – Leadership Safety Walk on Origami allows colleagues to complete a Safety Walk with no set questions. These can be completed by anyone in the business but in line with our See Care Share ethos of 'Leaders leading by example', we recommend they are completed by Regional Manager's, Head of Operations, and all above unit operators, but we also encourage Unit Managers and Supervisors to complete. This can be accessed via the QR Code.

If you require support with the Origami Safety Walk please contact your H&S Lead [Jo.Jackson@compas-group.co.uk](mailto:Jo.Jackson@compas-group.co.uk)
