

Step by Step Guide

Easy Steps – Sponge

STEP 1

Take pudding out of outer plastic packaging.

Place the sponge upright in the bowl and place in the microwave.

STEP 2

Press button 0 (30 seconds).

STEP 3

After cooking, leave for 15 seconds then temperature probe the sponge.

If over 75°C, record the temperature and go to Step 4.

If not, boost cook for 15 seconds and re-test.

STEP 4

Turn the pudding over in the bowl. Squeeze the top and lift the container, leaving the sponge in the bowl and serve (with custard, if ordered).

Step by Step Guide

Easy Steps – Crumble

STEP 1

Take pudding out of outer plastic packaging.

Place the crumble upright in the bowl and place in the microwave.

STEP 2

Press button 9 (60 seconds).

STEP 3

After cooking, leave for 15 seconds then temperature probe the crumble.

If over 75°C, record the temperature and go to Step 4.

If not, boost cook for 15 seconds and re-test.

STEP 4

Scoop the crumble into the bowl and serve (with custard, if ordered).
